We hope this Passover product supplement will help you in your preparations for a wonderful holiday. This Passover product supplement is not meant to be exhaustive or complete.

All information in this supplement should only be used for Passover 5786-2026.

More about Passover can be found in our Annual Halacha Guidebook, beginning on page 16. If you do not have one and would like one, please contact the office at 781-322-5686 or see it on our website at [bethisraelmalden.org](http://bethisraelmalden.org).

The information presented here has been culled from the Passover guides produced by the Chicago Rabbinical Council, Star-K, and Orthodox Union.

May we all be blessed with a kosher and happy Passover!

# MEDICATIONS ON PESACH

All **pill or non-chewable tablet medication that you swallow** is permitted, even if it contains a chametz ingredient. Candy coated pills are an exception to this rule but are uncommon. If you prefer to be stricter with these items, consult the Star-K Passover directory in print form and The Laws of Pesach: a Digest by Rabbi Avrohom Blumenkrantz, which have extensive lists of medications. The websites mentioned above have shorter lists.

**Gelcaps, both hard and soft**, do not pose a chametz concern, but the gelatin they are made from is not kosher. Accordingly, all year round, they should only be consumed by someone who is ill and does not have an alternate which is free of kashrut concerns.

**Vitamins and food supplements** do not necessarily qualify as medications and should only be used with Passover supervision. If a doctor prescribes a vitamin which does not have Passover supervision, speak with the Rabbi. See the Kosher Vitamin section for a list of kosher for Passover vitamins.

**Liquid medicines and chewable pills** need Passover supervision. See the CRC medicine list below or consult the Passover guides or websites listed above. Only use one that does not have Passover supervision under the direction of a doctor and Rabbi.

**Medicinal creams and injections** are permitted.

**Suppositories** are permitted.

Medications that you have a question about and don't need should be put away along with chametz items.

## Important

- Do not discontinue the use of any medication without consulting with your doctor and Rabbi.
- If it contains kitniyot, consume it only if you are ill (e.g. ill enough that you would lay down because of the illness or you may come to that). For any questions contact the rabbi.
- All antibiotics, including liquids, are acceptable without Passover certification.
- You may only relieve a minor discomfort with liquid or chewable medicine if it does not contain kitniyot.

These guidelines do not address the issue of taking medicines on Shabbat and Yom Tov.

# COSMETICS and TOILETRIES

## General Guidelines

- ✦ All varieties of blush, body soap, conditioners, creams, eye shadow, eyeliner, foundations, ink, lotions, mascara, nail polish, ointments, paint, shampoo, and stick deodorant are permitted for use on Pesach - regardless of the ingredients contained within them.
- ✦ Many varieties of cologne, liquid deodorants, hairspray, mousse, perfume, shaving lotion, sunscreen, and wipes contain denatured alcohol, and therefore should only be used on Pesach if they do not contain alcohol or the alcohol is known to be free of chametz. Such products manufactured in the United States may be used, regardless of whether the ingredient list includes denatured alcohol.
- ✦ Lipstick, mouthwash, and toothpaste which contain chametz should not be used.

Following are the product lists.

## ERUV TAVSHILIN

We are not permitted to prepare on one day of Yom Tov for the next or on Yom Tov for after Yom Tov. We have a problem when the day after Yom Tov is Shabbat (when cooking is forbidden).

So how can we cook for Shabbat? In order to permit cooking and preparation for Shabbat on Friday, we perform “Eruv Tavshilin” on Wednesday, the day before Yom Tov.

## INSTRUCTIONS

Set aside a cooked food, such as a boiled egg or a cooked piece of fish or meat and a challah, roll, or a piece of matzah.

While holding the cooked food and the challah, recite the blessing, “...al mitzvat eruv” and the eruv “declaration” found in any siddur or machzor.

Store them in a place where they will remain for Shabbat. It is important to remember to eat these items during Shabbat.

# CHECKING ROMAINE

The information in this section is from the OU PassoverGuide, and can be found here:  
<https://oukosher.org/passover/articles/assuring-insect-free-romaine-lettuce/>

For specific instructions on how to check any kind of produce, you can look it up on this website: <https://consumer.crckosher.org/consumer/fruitsvegetables/>

There are two options for properly checking romaine lettuce, using a light box or a mesh cloth, that are equally acceptable.

## LIGHT BOX

1. Cut off the lettuce base and separate the leaves from one another.
2. Soak leaves in a solution of cold water and soap. The proper amount of soap has been added when some bubbles are observed in the water.
3. Agitate lettuce leaves in the soapy solution.
4. Spread each leaf, taking care to expose all its curls and crevices. Using a heavy stream of water or sink hose, remove all foreign matter and soap from both sides of each leaf. Alternatively, a vegetable brush may be used on both sides of the leaf.
5. Leaves should be checked over a light box or against strong overhead lighting to verify that the washing procedure has been effective. Pay careful attention to the folds and crevices in the leaf where insects have been known to hold tightly through several washings.

## MESH CLOTH

(washing lettuce and checking water)

1. Agitate and soak leafy produce for a few minutes in cold water containing vegetable wash.
2. Drain the water through a mesh cloth placed between two large strainers.
3. After draining the water, place the mesh cloth on a light box to inspect for any insects that were dislodged from the produce into the water.

The mesh cloth method of checking has become increasingly popular and can be a time saver, making it easier to check larger volumes of produce.

Anyone interested in purchasing a mesh/thrip cloth can contact Rabbi Zvi Solomon of the KVH at 617-999-2882 or the Rabbi.

You can watch a video on the mesh cloth method here:  
<https://www.star-k.org/videos?channel=920613>

# MILK SUBSTITUTES, NUTRITIONAL SUPPLEMENTS, AND INFANT FORMULAS

The OU has researched the following milk substitutes, nutritional supplements, and infant formulas, and has determined that they are respectively suitable for someone who is infirm (*choleh she'ain bo sakanah*) and for infants, when bearing the OU logo.

Most of these products contain *kitniyos*, and for some that is the primary ingredient. Accordingly, consumers should consult with their rabbi before deciding to use these items which are not fully kosher for Pesach. With the exception of the flavors used, any item which might be *chametz*-based is used in such small proportions that it is *batel b'shishim* (nullified). Where possible, it is preferred to (a) use a substitute which is certified for Pesach, and (b) use a liquid supplement instead of a powdered one. Products should be purchased before Pesach and be maintained segregated from kosher for Pesach foods.

1. *Kitniyos Shenishtanu* even with KFP symbol.

2. Should be avoided on Pesach.

3. Unless bearing a reliable Passover certification.

4. Only acceptable when the certifying agency has documented that all chometz issues have been resolved. *Mishnah Berura* 453:13.

5. Those people who eat rice on Pesach should confirm their rice is *Kosher l'Pesach* and free of problematic additives. For more information, see [www.star-s.org](http://www.star-s.org).

6. The bulbs, root, and greens of these items are not *kitniyos*; it is only the seeds that are an issue.

7. This ingredient can be sourced from chometz, *kitniyos*, or *Kosher l'Pesach* sources. It may not be used on Pesach unless it has approved certification. Even with a valid certificate, it may be *kitniyos shenishtanu*.

RECOMMENDATIONS ARE FOR ITEMS PRODUCED IN THE UNITED STATES

### Acceptable without Pesach Certification

Food items in this section should preferably be purchased before Pesach

### Must bear reliable Pesach Certification

### Not acceptable for Pesach

Sephardim should contact their local Sephardic rabbi regarding issues of *kitniyos*

## FAQ Anise – Same Status as *Kitniyos*

**Q** The cRc shopping guide lists a few varieties of anise (caraway, cumin, coriander, dill, and fennel) as *kitniyos*. Can you explain to me why that is the case?

**A** *Rema* 453:1 rules that anise and coriander are not *kitniyos*. Some of the later *poskim* (*Taz* 453:1 & 462:3, and *Chok Yaakov* 453:9) basically accept this *psak* but suggest that these spices be checked carefully to make sure none of the five grains are mixed into them. Other *poskim* (*Magen Avraham* 453:3) take a stricter approach and are of the opinion that one should avoid these spices since it is so difficult to check whether grains are mixed into them. Rav Schwartz *zt"l* accepted the ruling of the *Mishnah Berurah* 453:13 to follow the stricter approach. Accordingly, these spices are listed in our shopping guide as “same status as *kitniyos*.”

## HOW TO USE THE PRODUCT DIRECTORY

### Products are Kosher for Passover only when the conditions indicated below are met.

☆ **P Required** - These products are certified by STAR-K for Passover only when bearing STAR-K P on the label.

☆ **No P Required** - These products are certified by STAR-K for Passover when bearing the STAR-K symbol. No additional "P" or "Kosher for Passover" statement is necessary.

**P Required** - These products are certified for Passover by another *kashrus* agency when bearing their kosher symbol followed by a "P" or "Kosher for Passover" statement.

**No P Required** - These products are certified for Passover by another *kashrus* agency when bearing their kosher symbol. No additional "P" or "Kosher for Passover" statement is necessary.

#### Please also note the following:

- Packaged dairy products certified by STAR-K are *Cholov Yisroel* (CY).
- Products bearing STAR-K P on the label do not use any ingredients derived from *kitniyos* (including *kitniyos shenishtanu*).
- Agricultural products listed as being acceptable without certification do not require a *hechsher* when grown in *chutz la'aretz* (outside the land of Israel). However, these products must have a reliable certification when coming from Israel as there may be *terumos* and *maasros* concerns.
- Various products that are not fit for canine consumption may *halachically* be used on Pesach, even if they contain *chometz*, although some are stringent in this regard. As indicated below, all brands of such products are approved for use on Pesach. For further discussion regarding this issue, see page 126.

## NUTS

Raw, whether they are slivered, whole or chopped nuts (e.g., almonds, pine nuts, walnuts, etc.) without preservatives or other additives, such as BHT or BHA in corn oil, are approved for Passover.

If label states that it is processed in a plant that processes kitniyos or chometz, then it requires a reliable KFP certification.

The following processed nuts require KFP certification: Dry roasted, toasted, blanched, and ground. Whole and half pecans are similar to any raw nuts mentioned above; however, pecan pieces and midget pecans must bear a KFP symbol. Many consider peanuts as kitniyos, which are not permissible on Pesach.

## Paper Towel Rolls

Any brand may be used in the following manner: The first three sheets and the last sheet attached to the cardboard should not come into direct contact with food, since a corn starch based glue may be used. (If using rolls of half-sized sheets, this rule applies to the first four and the last two sheets.) The rest of the roll may be used with hot or cold foods.

## Styrofoam Plates & Cups

The problems associated with styrofoam are not a Pesach issue. They may contain ingredients that are non-kosher; however, they are free of chometz. Those who use styrofoam year-round may use it on Pesach.

## Tablecloths

All clear plastic, non-powdered may be used. Ensure that the plastics (even when using "pre-cut" tablecloths) are not attached to avoid halachic issues related to Shabbos & Yom Tov.

## QUINOA

Quinoa is Kosher l'Pesach and is not related to the five types of chometz grains, millet or rice. However, because there is a possibility that quinoa grows in proximity to chometz grains and may be processed in facilities that compromise its Kosher for Passover status, quinoa should be accepted only with a reliable Kosher for Passover approval. In addition, there have been infestation issues in many brands of quinoa.

We recommend quinoa be checked prior to use, according to our guidelines at [www.checkforinsects.com](http://www.checkforinsects.com). The following is approved for Pesach:

### Kirkland Brand

## RICE

Although the rice products in the following list have been thoroughly cleaned in the factory by advanced machinery which removes any foreign material, leading poskim of the Sephardic community have ruled that the established custom of checking rice prior to Pesach three times, grain by grain, should still be followed. When checking brown rice, be sure to also check for insects, as there have been infestation issues in many brands.

CUPS (PAPER, PLASTIC OR	LOTIONS	WATER FILTERS

## ORAL HYGIENE

### Oral Hygiene (Toothpaste, Mouthwash) & Flavored Lip Treatment (Lipstick, Lip Balm) Products:

Rabbinical authorities disagree as to whether kosher certification of these items is required (both for Passover and year-round). Consult your Rabbi. Please see product pages in the Passover Guide for OU certified toothpaste.

## GUIDELINES FOR MEDICINES

**1.** Exercise extreme caution and consult with your doctor and rabbi before making a decision not to take a medicine.

**2.** Known and tested medications in the form of creams, non-chewable pills and injections may be owned, used and consumed on Pesach, even if they contain *chametz* or *kitniyot*, since they are inedible. This covers most medicines used by adults. However, if an equally effective *chametz*-free alternative is available or procurable, this should be used instead.

**A.** It is permissible to grind pills and mix the powder into food items so that a child can take medicine on Pesach. However, a doctor must be consulted to make sure that the child is getting the correct dosage and that the potency of the pill is not compromised by altering its consistency.

**3.** Liquid medicines, chewable pills and pills coated with a flavored glaze are considered palatable and may contain *chametz*.

Also gelcaps may present a problem because they may contain non-kosher edible gelatin. Therefore:

**A.** If possible, they should be replaced, under the direction of a doctor, with a non-chewable, uncoated pill.

**B.** If substitution is not possible and the person is in a state of *sakana* or *safek sakana* (any possible danger to human life), the medication may be owned and consumed. The same applies if the condition is not yet a *safek sakana* but may deteriorate to that point. A rabbi should be consulted as to whether it is preferable to purchase the medicine before or during Pesach, and as to how to dispose of the medicine once the danger passes.

**C.** If substitution is not possible and a doctor determines that there is no possibility of *sakana* if the person does not take the medicine, a rabbi should be consulted. He may be able to determine that the medicine does not contain *chametz* and/or *kitniyot*, or he may decide that the medicine may be consumed due to the seriousness of the patient's condition.

**4.** Unless an equivalent alternative is available, medicinal items which contain *kitniyot* are permitted for people who are ill. Questions on this issue should be directed to your rabbi.

**5.** These guidelines do not address the more general prohibition of consuming medicines on Shabbat and *yom tov*.

## Medicine Guidelines

The cRc's general guidelines on medicines, cosmetics, and toiletries can be found on the previous page. The following is a summary of the medicine portion of those guidelines:

All **pill medication**, in solid tablet or solid caplet form – with or without *chametz* – that one swallows is permitted. (Candy-coated pills are an exception to this rule, but they are quite uncommon.)

**Vitamins** generally do not qualify as medications and are instead treated as food supplements which require *hashgachah* for Pesach. If a doctor prescribes a specific vitamin which does not have Pesach supervision, please review your specific situation with your doctor and rabbi.

**Gelcaps**, both hard and soft, do not pose a *chametz* concern, but the gelatin they are made from is not kosher. Accordingly, during Pesach and all year round, they should only be consumed by someone who is ill and does not have an alternate medicine which is free of kashrus concerns.

**Liquid and chewable medications** that may contain *chametz* should only be used under the direction of a doctor and rabbi, who will judge the severity of the illness, the likelihood that the medicine contains *chametz*, and the possibility of substituting a swallowable pill. **Important: Do not discontinue use of liquid, chewable, or any other medicine without consulting with your doctor and rabbi.**

Liquid and chewable medications that contain *kitniyos* may be consumed by someone who is ill.

For laws of taking medicine on Shabbos and Yom Tov, please consult your Rabbi.

## Medicine and Toiletry Details

Items marked “Possible *chametz*” contain edible ingredients whose *chametz*-status we were unable to determine; these items may be permitted for someone who is seriously ill, and consumers should consult with their rabbi.

For an expanded and updated list of products, search [www.ASKcRc.org](http://www.ASKcRc.org) or our smartphone apps.

**Antibiotics**

Generally speaking, the cRc recommends all medicinal items in pill form, which includes most of the antibiotics that adults take. The same does not apply when dealing with liquid or chewable medicines, which are considered “edible.” Since there is a chance that they contain *chametz*, they should only be used if they are known to be free of any concerns.

However, antibiotics are an exception to that rule. Generally, antibiotics are given to treat ailments which, if left untreated, can lead to a situation of *sakanah* (danger to life). Therefore, one may consume antibiotics regardless of the ingredients used in creating them.

## FAQ Coated Pills

**Q** It says on your website that one can take any pill medication that is swallowed. Does that include coated pills such as Advil?

**A** Most pills which are meant to be swallowed are coated with a glaze, wax, or shellac, which makes the pills easier to swallow, and some of these coatings have some form of simple sugar (e.g., sucrose). None of these ingredients are problematic for Pesach.

In rare cases, though, a pill has a flavor or is coated with sweeteners which are Pesach-sensitive (e.g., sorbitol or mannitol). These are listed as inactive ingredients, and we don't recommend them for Pesach. One example of this is some Advil brand products. The inactive ingredient panel occasionally lists that the coating contains mannitol or a flavor, and those items are not recommended.

# 2026 PET FOOD LIST

## THE FOLLOWING IS A LIST OF PET FOODS APPROVED FOR PASSOVER 2026 WHEN PRODUCED IN THE U.S.

Products with identical names from foreign countries may have different formulations, thus compromising their Passover status.

Since formulas are subject to change, make sure to check all labels. There should be no chometz listed.

A product listing both meat and dairy ingredients may not be used at any time during the year.

See "Feeding Your Pet: Barking Up the Right Tree" at [star-k.org/passover](http://star-k.org/passover) for more information.

## FEEDING CHICKENS ON PESACH

The following information was provided to STAR-K by a veterinarian.

BRAND	PRODUCT	NOTES
<b>Prairie's Choice</b>	Non-GMO Backyard Chicken Starter/Grower Feed, Non-GMO Backyard Chicken Layer Feed Order at <a href="https://www.prairieschoice.com/">https://www.prairieschoice.com/</a>	<b>IMPORTANT:</b> Chicken feed needs to be switched over slowly about 10 days before Pesach to prevent illness, as follows: add 10% the first day, 20% the second day and so on, until 100% switchover is achieved. (If less time is available, check with your veterinarian.)
<b>Reedy Fork Organic Farm</b>	Organic Layer Feed Order at <a href="https://reedyforkfarm.com/organic-soy-free-gluten-free-layer-feed">https://reedyforkfarm.com/organic-soy-free-gluten-free-layer-feed</a>	If this item can be shipped faster than above Starter Feed, chicks can survive on layer feed for the 10-day period, it's just not an optimal diet for them. Owners should spend about 7-10 days prior to Pesach doing the switch as indicated above. Maintain chicks on the layer feed and gradually switch back to their regular feed after Pesach.

**STAR-K thanks Julie Rabinowitz, DVM, for helping to develop the nutritional guidelines for the following animals:**

### AQUATIC TURTLES

- **Fluker's – Crafted Cuisine** Turtle Diet for Aquatic Turtles
- Dark, leafy green vegetables (such as collard, mustard and dandelion greens, kale, bok choy, deep green lettuces, parsley)
- Finely chopped vegetables (such as bell peppers, carrots, squash, green beans)
- Goldfish
- Guppies

### BEARDED DRAGONS

They can follow the same diet as Geckos, listed below, in addition to the following:

- Fruit (including kiwi, banana, mango, papaya, apple),
- Mixed vegetables (such as deep leafy greens, squash, carrots, greens)
- Calcium and Vitamin D supplementation (e.g., **Zoo Med – Repti Calcium with D3**)

**NOTE:** As bearded dragons age, they can move to a more vegetable-heavy diet for life.

## BIRDS

BIRD TYPE/SPECIES	RECOMMENDED FOODS	NOTES
All Birds	Fruits, vegetables, fresh herbs, cooked chicken, canned tuna, pure alfalfa pellets (crushed for small birds)	
Large Birds	Millet, sorghum, sunflower seeds	Millet is easy to acquire in bulk on Amazon.com, as well as at local pet stores, and can be fed in large quantities.
Small Birds	Millet (sorghum and sunflower seeds are too large)	Note, however, that it doesn't provide a nutritionally complete diet.
Doves, Finches, Pigeons, Sparrows	Can have dog food (see above list)	

**FOR ALL BIRDS, AVOID THE FOLLOWING:** apple and pear seeds; all dairy – small amount of cottage cheese is okay; all fruit pits; avocado; mushrooms; peanuts

## FERRETS

- Higgins inTune - Ferret Kibble

## GECKOS

Most varieties are insectivores and prefer a diet of the following offered every two to four days:

- Crickets and grasshoppers
- Earthworms, mealworms, silk worms, super worms, or waxworms
- Fruit flies
- Moths
- Roaches
- Calcium and Vitamin D supplementation (e.g., **Zoo Med** – Repti Calcium with D3)

## GERBILS & HAMSTERS

- Fruits and vegetables
- Matzah
- Millet
- Puffed rice
- Pure alfalfa pellets or hay
- Pure timothy or other pure grass hay
- Raw sunflower and pumpkin seeds
- Treats

## GUINEA PIGS

- **Higgins Vita Garden Grain Free** – Guinea Pig Pellets
- Need Vitamin C supplementation (e.g., **Oasis** – Vita-Drops Pure Vitamin C for Guinea pigs).
- Vegetables high in Vitamin C (e.g., broccoli, brussels sprouts, cabbage, cauliflower, green and red peppers, spinach, sweet potatoes, turnip greens and other leafy greens)
- Unlimited amounts of pure timothy hay (or other pure grass hay, such

## RABBITS

- **Higgins Vita Garden Grain Free** – Rabbit Pellets (Junior or Adult)
- Unlimited amounts of pure timothy hay (or other pure grass hay, such as orchard grass, oat or meadow hay), leafy greens, herbs, carrot tops and chopped vegetables

## ADVICE REGARDING WEANING PETS BEFORE PESACH

Mixes sold in stores often contain chometz. It is advisable for pet owners to slowly wean their pets off their regular chometz pet food diet.

This is accomplished by mixing regular and Pesach food starting between one and two weeks prior to Pesach, before switching completely to Pesach food. The ratio of regular and Pesach food should be changed gradually to get the animal used to the new diet. Check with your veterinarian before changing your pet's diet.

# Chametz after Pesach

## GROCERY STORES

Based on our research, Chametz from all major grocery stores is permitted to be purchased after Pesach this year. Almost all stores in our area have no Jewish ownership, and the ones that have Jewish ownership have divested themselves from owning Chametz for the duration of Pesach according to Torah law. For those that prefer not to rely on any sale of Chametz, the following are the best options:

**BJ's**

**Costco**

**CVS**

**Trader Joe's**

**Wegman's**

**Whole Foods**

All KVH Kosher Certified Establishments have divested themselves from owning Chametz for the duration of Pesach according to Torah Law.

**PLEASE NOTE:** While Ocean State Job Lot appears to be under Jewish ownership, KVH Kosher has not been able to verify the ownership status, nor whether the chametz was sold or not. Please consult your local Rabbi regarding purchasing chametz there during the next couple of months.

## LIQUOR STORES

A serious concern has come to light in that many local liquor stores, as well as major liquor distributors in the Greater Boston Area are under Jewish ownership. Therefore, until the end of June, Chametz beverages should be purchased only in one of the grocery store chains mentioned here, any liquor store which is verified as not being Jewish-owned, or one of the following:

# Kashering the

## Introduction

Dishes, utensils, kitchen appliances, countertops, and anything else used with food year-round, cannot be used for Pesach, unless it goes through a process known as “*kashering*” or “*hechsher keilim*”. For a few items, *kashering* just involves thoroughly cleaning the item, but for most items, *kashering* also requires submerging the item in boiling water or a similar hot process. The laws of *kashering* are quite complex, and this article will present the most practical points for the average consumer. Readers are encouraged to discuss any questions not covered in this article with their Rabbi.

Most basic kitchen items are covered in this article. For these and additional items at-a-glance, see “Which Items Can be *Kashered*” (page 30).

### The following items **cannot** be *kashered* for Pesach:

China, pottery, earthenware, cement, concrete, and enameled pots **cannot** be *kashered* for Pesach. The Ashkenazic custom is not to *kasher* **glass** or **crystal**, with the exception of glass stovetops discussed below. There is a difference of opinion as to whether plastic and other synthetic materials are included in this rule, and the cRc position is that these materials **can** be *kashered*.

Utensils and appliances which **cannot** be thoroughly cleaned, such as those having crevices in which *chametz* can accumulate, **may not** be *kashered* for Pesach. Some examples of this are dishwashers, sieves, graters, utensils with loose-fitting handles, and bottles with narrow necks.

Materials which might get ruined during the *kashering* process **may not** be *kashered* for Pesach, out of concern that the person would be afraid of breaking his utensil and will therefore not *kasher* properly. For example, a toaster cannot be *kashered* because it requires a method of *kashering* called *libun gamur*, which involves intense heat that might ruin the device.

We now turn to the parts of the kitchen which can be *kashered*.

## SEPHARDIC APPLICATIONS

1. Rav Ovadia Yosef (*Chazon Ovadia* – Pesach 2003 edition page 151), following the *Shulchan Aruch* (*Orach Chaim 451:26*), rules that **glass** and **crystal** do not need to be *kashered* for Pesach. Glass is a non-porous material, and thus merely requires to be washed and cleaned and may be used for *Pesach*. This includes **Pyrex** and **Duralex** as well. (*Chazon Ovadia*, *ibid.*) However, one must ascertain that no other substance is adhered to the outside of the vessel, such as in decals or decorations, as these substances may not be glass and, depending on the substance, may require *kashering* or may not be *kasherable* at all.
2. However, an item that is not 100% glass, but contains even a small amount of material that is not able to be *kashered*, such as **ceramic**, may not be *kashered* (personal communication with Rav Ovadia Yosef). For example, a glass stovetop is likely not 100% glass and may contain additional materials. If even a small percentage of those additional materials are not *kasherable*, then the entire stovetop may not be *kashered*.
3. Rav Yosef (*Chazon Ovadia* – Pesach 2003 edition, page 151) opines that **plastic** may be *kashered* for Pesach.

## Flatware

**Silver, stainless steel, and plastic** flatware can be *kashered*. The process begins with a thorough cleaning, after which the utensil should not be used for 24 hours. A pot of water is brought to a rolling boil, and the pieces of flatware are dropped into the water one at a time. If the water stops boiling at any point, one must wait until it returns to a boil before putting in any more flatware. The custom is to rinse the flatware with cold water after *kashering*.

Some have the custom to *kasher* in a dedicated “*kashering* pot” which is not used for anything else, but most *kasher* in any pot which is clean and has not been used for 24 hours.

## Pots and Pans

Standard metal pots are *kashered* in the same manner as flatware. See our video at [bit.ly/LargePot](http://bit.ly/LargePot) or scan the QR code at right for a demonstration of how to *kasher* a pot which

# Kitchen

is too large to fit into any other pot of boiling water. **Enameled pots** (e.g., **Fiesta Ware**, **Le Creuset**) and **glass pots** (e.g., **Pyrex**) **may not** be *kashered* with *hag'alah* due to the materials they are made of. The **Instant Pot** and its cover **may not** be *kashered* because they have too many nooks and crannies which cannot be cleaned properly and into which the *kashering* water might not penetrate.

In general, **baking**, **roasting**, and **frying pans** **cannot** be *kashered* for Pesach, unless they are always used with generous amounts of oil or other grease when cooking. If that is the case, they can be *kashered* through *libun kal*, which involves cleaning the pans well, not using them for 24 hours, and then putting them upside-down on an open flame until both the inside and outside of the pan are hot enough to singe paper.

## Drinking Glasses

The Ashkenazic custom is that drinking glasses made of **glass** **may not** be *kashered* if they were ever used for hot beverages or washed with hot water, such as in a dishwasher. If they were never used for hot drinks or washed hot, completely fill the glasses with water, and leave the water in the glasses for at least 24 hours; repeat this procedure two additional times with fresh water. Drinking glasses made of **plastic** can be *kashered* in the

## SEPHARDIC APPLICATIONS

### Glass Pots (Pyrex)

Per point #1 on previous page, these items do not need to undergo *kashering*. Washing and cleaning them suffices (*Chazon Ovadia* – Pesach 2003 edition page 152).

### Frying Pans

Following the *Shulchan Aruch* (*Orach Chaim* 451:11), Rav Ovadia Yosef (*Chazon Ovadia* – Pesach 2003 edition page 138) rules that *hagala* suffices for frying pans. However, the difficulty in achieving the prerequisite level of cleanliness necessary for *hagala* may make this process impractical.

### Glassware

Per point #1 on previous page, glass cups, even used with hot liquids, do not require more than being washed and cleaned to be usable on Pesach.

same manner as flatware noted above but drinking glasses (or anything else) made of **ceramic** or **china** **may not** be *kashered*.

## Tablecloths

**Fabric tablecloths** may be used for Pesach after being laundered. **Vinyl tablecloths** **may not** be *kashered* and should be replaced for Pesach.

## Electric Mixers, Food Processors, and Blenders

The motor area of **small electric appliances** (e.g., mixers, food processors, blenders) is often exposed to *chametz* and is very difficult to clean; it is therefore recommended that one purchase separate appliances which should be reserved for Pesach use. A food processor or blender whose motor area is truly sealed, such that food does not penetrate, is not affected by this issue and can be used for Pesach after separate bowls and blades are purchased for Pesach use and the outside of the device is wiped down to remove all residue.

## Sinks

**Stainless steel** or **Corian sinks** can be *kashered* using the following method. Clean thoroughly, leave unused for 24 hours, boil a kettle of water, and carefully pour that water over all surfaces of the sink and faucet. Preferably, the sink should be rinsed with cold water after *kashering* is completed. The strainer covering the sink's drain, and the aerator on the faucet, should be replaced for Pesach. If a faucet has a coiled hose, the faucet can be used on Pesach **if** the coiled portion remains in the "base" and is not pulled out. **Porcelain sinks** **may not** be *kashered*.

## SEPHARDIC APPLICATIONS

### Sinks

Rav Ovadia Yosef (*Chazon Ovadia* – Pesach 2003 edition page 151) ruled that **porcelain** sinks may be *kashered* in the same way that **stainless steel** or **Corian** sinks are *kashered*. He added that it is preferable to undergo this process three times for **porcelain** sinks.

Dishes and other Pesach utensils may not be placed in a sink

which was not *kashered*; rather, an insert or basin which was never used for *chametz* must be placed in the sink, and all dishes should be put into that insert.

## Stovetops and Ovens

Most stovetops (ranges) and ovens can be *kashered* for Pesach use, and the process for doing so is as follows:

### Stovetops

The most common type of stovetop is a metal grate over an open flame, which is situated on a porcelain enamel surface. Others have electric coils in the place of an open flame or have a *glass* (a.k.a. glass-ceramic) surface covering electric coils; the most popular brands for this last type of stovetop are **Corning** and **Ceran**.

The *kashering* of stovetops – including glass ones – is done as follows: All parts of the stovetop should be thoroughly cleaned, including scraping residual food from the surface and catch-tray, and not used for 24 hours. Then the fire or coil should be turned to its maximum temperature for at least 30 minutes. [For electric stovetops with exposed coils (i.e., not covered with glass), leave the coils on for just 15 minutes.] It is acceptable to *kasher* burners one at a time. An alternative for a glass stovetop is to not *kasher* it at all, and instead place all pots onto metal discs so that the pots have no contact with the stovetop.

Afterwards, cover the following areas with foil: (a) the knobs, catch trays, and all areas between the burners, and (b) areas behind the burners where pots might touch. If there is food residue on the underside of the stove's hood, it should be thoroughly cleaned before Pesach.

### Induction Cooktops

Induction cooktops do not have a heating coil or other heat source, and, therefore, there is no realistic way to *kasher* them. The only way to use the induction cooktop on Pesach is to put a physical barrier between the cooking surface and the pots. This can be accomplished either with “induction discs” or a “mat” that is designed for an induction cooktop. Although the cooktop will not have been *kashered*, the barrier prevents any absorbed *chametz* from spreading to the pots and food.

[NOTE: Using an induction cooktop raises significant *halachic* issues on *Shabbos* and *Yom Tov*, some of which might be eliminated by the use of the induction discs noted above, and consumers should consult with their Rabbi for direction on this matter.]

### Non self-cleaning oven

All surfaces of the oven and racks must be thoroughly cleaned, the oven and racks should not be used for 24 hours, and then the oven should be turned on to 500-550°F for one hour. As an added precaution for Pesach, once this process is complete, some cover the racks and grates on both sides with aluminum foil (which should be perforated for air circulation), and do not allow food to touch the side, bottom or top of the oven on Pesach.

### Self-cleaning oven

A complete high-temperature self-clean cycle should be run with the racks inside the oven, and then the oven may be used for Pesach without covering the racks. This *kashering* may be done even if the oven was not left unused for 24 hours. If the racks are not inside the oven while the self-clean cycle is run, the racks should be *kashered* separately.

NOTE: Low-temperature self-clean cycles (e.g., AquaLift, Steam Clean) do not qualify as *kashering*.

### Warming drawer

Light one can of chafing-dish fuel (e.g., Sterno cans) in the warming drawer, being sure to use a can fueled with ethanol or methanol. (Wicked cans that use diethylene glycol as a fuel should not be used for *kashering*.) Make sure to leave the door of the warming drawer slightly ajar, so that there will be enough air to allow for combustion and allow the can to burn for two hours. As with all *kashering*, before you begin, the warming drawer must be thoroughly cleaned and not used for 24 hours.

### Microwave oven

The microwave oven's **glass plate may not be *kashered* (or used)** and should be removed before *kashering* begins. Some microwaves have a porcelain enamel interior; these microwaves **may not be *kashered***.

## SEPHARDIC APPLICATIONS

### Microwave oven

Regarding the glass plate, refer to Point #1 on the first page of this article that glass does not require anything more than being washed and cleaned to be usable on Pesach. This assumes, though, that the plate does not contain even a small amount of *un-kasherable* materials (see Point #2 on the first page of this article).

## SEPHARDIC APPLICATIONS

### Ovens

Rav Ovadia Yosef (*Chazon Ovadia* – Pesach 2003 edition page 132) does not require the additional stringencies of covering the racks etc. and preventing food from coming into contact with the oven walls.

To *kasher* the microwave appliance, clean it thoroughly, and do not use it for 24 hours. Then a cup of water should be boiled in the chamber for an extended amount of time, until the chamber fills with steam. For Pesach, it is a commendable extra precaution to cover all foods in the microwave, even after performing the above *kashering*. If a microwave has a metal grate, it should be *kashered* in a pot of hot water as described in the **Flatware** section above.

For **convection microwave ovens**, the same *kashering* process as a conventional oven should be followed, paying particular attention to cleaning out the chamber and fan assembly.

**NOTE: Microwave ovens may be used on Chol HaMoed, but not on Shabbos and Yom Tov.**

## Refrigerators and Freezers

All parts of refrigerators and freezers, including storage bins, must be thoroughly cleaned and washed. The shelves should be lined with plastic or foil, which should be perforated with small holes to allow for air circulation.

## Countertops

In any situation where the countertop cannot or will not be *kashered*, it may only be used on Pesach after being covered with a non-porous material which will not easily rip or tear.

The procedure for *kashering* a countertop is to clean it thoroughly, not use it for 24 hours, boil a kettle of water, and carefully pour that water over all surfaces from the kettle. Once the countertop is *kashered*, it may be used without being covered. However, many people have a custom to both *kasher* and cover their countertops for Pesach. As noted at the beginning of this article, one may not *kasher* utensils made of certain materials (ceramic, cement, glass), or with materials which are not robust enough to withstanding *kashering*, and one may also not *kasher* any utensil that has cracks, nicks, or scratches where pieces of food might get stuck. These same restrictions apply to countertops. Practical examples of counters which can and cannot be *kashered* are detailed below and in the chart on the cRc website.

## SEPHARDIC APPLICATIONS

### Refrigerators

Rav Ovadia Yosef does not require the shelves to be covered, assuming the general usage does not involve placing boiling hot pots and pans directly on the racks. To his view, washing and cleaning the shelves is sufficient (*Chazon Ovadia* – Pesach 2003 edition page 148).

**Plastic laminate (Formica)** is manufactured by laminating a plastic material onto a thin piece of wood. In some cases, there are seams where two pieces of laminate meet, creating the potential for *chametz* to collect in that area during the year. Special attention should be paid to cleaning those seams.

Many kitchens use natural stone such as **granite, marble, limestone, quartzite, soapstone, slate,** and **onyx** for countertops. These can be *kashered* for Pesach, regardless of which sealant is used.

Another material used for countertops is **quartz resin**, a man-made material made to look like granite or marble. Some common brands are **Cambria, Caesar Stone, Silestone, QStone,** and **Zodiaq**. These may be *kashered* for Pesach. Similarly, countertops made of **acrylic** or **polyester** look like stone. Some popular brands are **Avonite, Corian, Gibraltar, Hi-Macs, Meganite, Staron, Surrell,** and **Swanstone**. These materials can be *kashered* for Pesach **if** they do not contain any scratches or stains, in which case they must be covered.

Others create counters from **butcher block** or **wood**. In general, wood may be *kashered* only if it contains no cracks that might trap *chametz*. Due to the likelihood of such cracks developing, it was the practice to sand down wooden surfaces in butcher shops before Pesach. If sanding the countertops is practical in one's home or if the countertop contains no cracks, the countertop can be *kashered*; otherwise, the wooden countertop should be covered for Pesach.

There are also **glass, ceramic, cement,** and **porcelain** countertops available. These countertops **may not** be *kashered* for Pesach and must be covered.

**Stainless steel, copper,** and **zinc** countertops are also available, and they can be *kashered* for Pesach.

Special thanks to Rick Glickman of “Dream Kitchens” in Highland Park, Illinois, for his assistance with our countertop research.

As with all *halachic* issues, if a question arises regarding *kashering* one's kitchen, contact your Rabbi.

**At-a-glance information about countertops is included in the chart on the cRc website. All of this information and more is available at ASKcRc.org and on the cRc Kosher apps.**
